

Directory of Shetland's Transport 2010/11

This booklet provides information on all public transport services within Shetland – air, ferries and buses, including shopper and Dial-A-Ride services. Shetland has a number of mainline and feeder bus services, which have timetabled routes, provided in this booklet. There are also a number of timetabled regular shopper services.

The Dial-A-Ride services are available to anyone wishing to access shops, doctors and other services in the local area, but have to be booked ahead by dialling (01595) 745745. This booklet also includes timetables for external links to and from Shetland, to Orkney and Mainland Scotland.

It is organised by each main area of Shetland, providing information on all forms of public transport in that area, for people travelling to and from the area and within the area. For ease, there is also a section on internal air services and internal ferry services.

Whilst every effort has been taken to ensure the information contained in this publication is accurate at time of printing, timetable changes may occur during the year. Up to date information is provided on the ZetTrans website at www.zettrans.org.uk/. You may also wish to confirm details with individual transport providers.

If you have any comments on this publication, or on transport services affecting Shetland, please contact ZetTrans using the contact details on the back page of this booklet.
